- Aprox 1,256 SqFt
- 2.63 Acres
- Newly Remodeled in 2017
- Guest Quarters
- Custom Finishes Throughout
- Radiant Heating

This idyllic Cazadero retreat with guest home was designed in the California serene transitional style allowing it to coexist with the natural surroundings. Sustainable materials such as cedar lined closets and repurposed materials are incorporated with state of the art German laminate flooring and energy efficient appliances. The integration of disciplines creates a mid century modern/country design with an open floor plan that is inviting and relaxing. By respecting function first and then leading to aesthetics this home has a feeling of ease and space.
